

## I Respect Terminal Montana Patients' End-of-Life Decisions

*Please check any applicable boxes and return the card by mail in the envelope provided.*

Montanans with incurable, terminal illnesses are suffering needlessly prolonged painful deaths. The new Death with Dignity ruling provides more choice and control.

If one of my patients were terminally ill, I would respect their right to make their own end-of-life choice under the law, and for it to be protected and respected.

I would like more information regarding Compassion & Choices' End-of-Life Consultation Service.
