Delaware Physicians Survey: Results Overview
June 07, 2022
Objectives

- Assess willingness of Delaware physicians to support passage of State’s proposed legislation to authorize medical aid in dying under certain conditions.
- Gauge how many supportive physicians are members of the Delaware Medical Society.
- Evaluate how support for the bill compares, based on length of practice.
Methodology

- Online survey of Delaware physicians fielded between May 23 and June 6, 2022
- Random-sample size of 147 respondents. Surveys collected using two methods:
  - Panel respondents from three providers (N=129)
  - Database/email respondents (N=18).
- Respondents received honoraria for participation, as is custom for panels
- Statistical variation is +/- 8%, with a 95% confidence level
Years in Practice

- More than 20 years: 39%
- 10-20 years: 37%
- Less than 10 years: 24%
Medical Society of Delaware Membership

- Yes: 51%
- No, never have been: 27%
- No, no longer a member: 17%
- Don't know: 5%
Physician Opinions regarding Medical Aid-In-Dying

Medical aid in dying (MAiD), which is defined as a practice in which a terminally ill adult with decision-making capacity asks for and receives a prescription medication that may be self-ingested to hasten a foreseeable death.
Two-thirds (66.7%) of Delaware Physicians Surveyed Support or Strongly Support MAiD
2-Out-of-3 Seasoned Delaware Physicians (10+ years practice) Surveyed Support or Strongly Support MAiD.
Profile of Physicians Who Support MAiD

Nearly Three-Fourths of MAiD-Supporting Physicians Surveyed are Members of the Medical Society of Delaware.
Support for Proposed Delaware Legislation

Legislation that would authorize medical aid in dying, with stipulations
Q2: MAiD Legislation Support

Support for the proposed MAiD legislation is high across all experience levels; however, as years in practice increase, so does opposition.
Profile of Physicians Who Support MAiD Legislation

Recommended Medical Professional Association MAiD position
Q3: Position Delaware Medical Society Should Adopt

More Than Half of Delaware Physicians Surveyed Say Medical Society of Delaware Should Support MAiD.
Q3: Position Medical Society of Delaware Should Adopt (by Years in Practice)
