compassion & choices

Care and Choice at the End of Life

My Particular Wishes
For Therapies that Could Sustain Life

In addition to the information on other Advance Directive forms I have completed, I wish to make my instructions known with respect to specific therapies that could save or prolong my life. This form is meant to inform my physician, nurse or other care provider of my consent or refusal of certain specific therapies. It is also meant to guide my family or any other person I name to make health care decisions for me if I cannot make these decisions myself.

I understand it is impossible to know what a person would want in a particular circumstance, unless that person has previously stated his or her wishes. I hope this document helps those who must make difficult decisions to proceed with comfort and confidence. By following these instructions they know they are acting in my best interests and are consenting or refusing certain therapies just as I would if I could hear, understand and speak.

Decisions While I am Capable

So long as I am able to understand my condition, the nature of any proposed therapy and the consequences of accepting or refusing the therapy, I want to make these decisions myself. I will consult my doctor, family and those close to me, spiritual advisors and others as I choose. But the final decision is mine. If I am unable to make decisions only because I am being kept sedated, I would like the sedation lifted so I can rationally consider my situation and decide to accept or refuse a particular therapy.

Comfort Care

I want any and all therapies to maintain my comfort and dignity. If following my instructions in this document causes uncomfortable symptoms such as pain or breathlessness, I want those symptoms relieved. I desire vigorous treatment of my discomfort, even if the treatment unintentionally causes or hastens my death.

Decisions for Specific Therapies

If my mental or physical state has deteriorated, the prognosis is grave and there is little chance that I will ever regain mental or physical function, I would like the following:

	Yes	Trial period*	No
1. Antibiotics, if I develop a life-threatening infection of any kind.			
2. Dialysis, if my kidneys cease to function, either temporarily or permanently.			
3. Artificial ventilation, if I stop breathing.			
4. Electroshock, if my heart stops beating.			
5. Heart regulating drugs including electrolyte replacement, if my heartbeat becomes irregular.			
6. Cortisone or other steroid therapy, if tissue swelling threatens vital centers in my brain.			
7. Stimulants, diuretics or any other treatment for heart failure, if the strength and function of my heart is impaired.			
8. Blood, plasma or replacement fluids, if I bleed or lose fluid circulating in my body.			
9. Artificial nutrition.			
10. Artificial hydration.			

*** This means doctors may see if the therapy quickly reverses my condition. If it does not, I want it discontinued.**
